“more results, faster results (continually)”

Testimonials

“The term ‘leadership’ means different things to different people. Brent’s approach to Action Leadership is very specific and can be a powerful tool to obtain specific results. I have applied his tools and techniques in multiple companies and on multiple continents and found universal results. In my latest assignment I applied his principles to help improve operating margin by over 30 margin points.”
— Paul Conroy, Business General Manager - Honeywell Europe

“In a 360-degree process that I went through three years ago my peers recommended that I get out in front of audiences more often. They suggested to me that I had good ideas but I needed to share them. I worked through Brent’s methodology and it changed my approach completely. What he teaches is simple yet profound in its implications. We need to motivate people to choose to be our cause leaders, not have people simply do things. Instead of telling people what you know and want them to do, we need to understand their motivation, tap their emotion, and enlist them as cause leaders to share a dream. I keep Brent’s card in my wallet to remind me of the steps in the process. Every Leadership Talk that I give follows this process. I recently used this process to enlist the support in a campaign for corporate giving. As a result we increased the employee participation and realized an increase in the giving rate per employee by 10%. His approach had a positive impact on the results.

“In my work with many cultures in many countries all over the world during the past two decades, I have encountered myriads of leaders and leadership programs — but Brent’s methodologies are really special. He not only focuses on having leaders consistently get actual results (not just talk about getting results); but his methodologies have people become engaged in profoundly human ways. Furthermore, he makes leadership and getting results a true joy!”
